I create dependable and scalable frontend solutions, I'm passionate about leveraging code to bring application designs to life. I specialize in building the user interface of the web and creating exceptional, meaningful and seamless experience to users. I'm a frontend developer that enjoys merging well-structured code with nice interfaces and seamless performance. I use HTML, CSS, Javascript, and React to create web and mobile solutions. I'm a creative professional, passionate about developing Tech solutions for every end users.

I am committed to excellence, collaboration and teamwork and I am enthusiastic about using my engineering background to solve complex challenges and create enjoyable experiences.

Work Experience

Google Africa Developer Scholarship (Intern)

August 2021 – January 2022

- Used html5, css3 and Javascript and bootstrap to build the UI pages and custom actions.
- Designed and developed page layouts, custom navigation, animation buttons and icons with css and font-awesome.
- Communicated and coordinated with other group members on programming and participated in progress report at every programming iteration period.
- Improved the UI of some existing projects to improve user experience.

Zuri Internship

April 2021- June 2021

- Learnt fundamental concept of Javascript and its application.
- Developed and implemented UI designs using ReactJS
- Lead a team of frontend developers that implemented some UI features for the group project.
